Bhawanigarh

FULLSTACK DEVELOPER

As a passionate and self-motivated computer science student, I have built a strong foundation in programming and problem-solving through academic projects and continuous learning. I thrive in collaborative environments, adapt quickly to new challenges, and possess a strong desire to apply my skills to real-world problems. With a keen interest in developing impactful solutions, I am committed to continuous growth and meaningful contributions in the field of technology.

SKILLS

Programming Languages:
JavaScript, Java, C++

Web Development:
HTML5, CSS3, Tailwind CSS, React.js, Node.js, Express.js, EJS

Tools & Technologies:
Git, GitHub, VS Code, Postman

Computer Science Fundamentals:
Data Structures and Algorithms, Object-Oriented Programming (OOP), REST APIs

Currently Learning:
Open Source Contribution, System Design Basics

EXPERIENCE

Student | Chitkara University - PUNJAB, IN | 08/2023 – Current
Collaborated with peers to develop innovative academic solutions and support learning initiatives.
Demonstrated strong organizational skills while managing multiple academic and extracurricular responsibilities.
Developed presentations to convey complex ideas clearly to classmates.
Delivered presentations on curriculum-relevant topics and led group study sessions.
Attended skill-enhancing seminars and maintained consistent progress through regular academic advising.
Developed strong teamwork and communication skills through collaboration with faculty and peers.

PROJECTS

Developing a full-stack grocery shopping app with user and seller authentication, product and order management using the MERN stack.
Built an IoT-based project "LoadMate", a smart storage solution focused on load optimization.
Created a Hotel Management System in Java, leveraging data structures and OOP concepts.
Participated in college-level coding competitions, sharpening algorithmic problem-solving skills.
Completed online courses in Java (Apna College) to enhance core technical knowledge.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering – Computer Science
Chitkara University, Punjab
